

Wishing Well Pennies For Healthy Kids

“Pennies for Healthy Kids” is a program created by the Children’s Hospital of Richmond, Virginia. St. Bridget School will participate in this program from **February 1st** through **February 12th**. To make this program successful, students are asked to bring in pennies, other coins and dollar bills. **If a student contributes at least one dollar throughout the two weeks, he or she will receive a free spirit day on Friday, February 12th.**

All the money raised by St. Bridget School will go to help the children at the Children’s Hospital of Richmond. These children are very special. They like doing things that healthy kids like to do. It is unfortunate that children should have to spend most of their time in a hospital. However, we must also feel happy for these children. The Children’s Hospital not only provides excellent medical attention but also family rooms, activity rooms, craft rooms, and a huge playground that was donated by the Kappa Delta sorority.

So, make a wish come true for these wonderful children by bringing in your “pennies” and putting them in the wishing well containers in your classroom.
